

SAFE-STRIDE™

Commercial Hygiene Service & Supply Specialists

Let our experience support and expand your business

Safe-Stride has been servicing the forecourt retail industry since 1994. We understand the obligation on retailers to provide cleaner and safer facilities for their customers and staff

- Forecourt Products
- Restroom Hygiene
- Food Service
- Car Valeting Products
- Hand Hygiene
- Consumables
- Janitorial Equipment

Maintenance & Repair Service

- Sales/Service Representatives are experienced in the repair and maintenance of equipment we supply.
- Any maintenance issues are dealt with during our scheduled service calls.

Staff Training

Safe-Stride has designed the "10 Point Staff Training Programme" which covers all aspects of chemical handling and safety.

Cleaning Schedule and Procedures

This involves detailing each piece of equipment, the products used for cleaning, the method of how to clean and the frequency of the cleaning. Staff instructions are also given.

Product Delivery

We provide a nationwide van sales service. No delivery charge.

Non Conformance

In the event of any product non-conformance, training issues and or deviances in standards, a note to the effect is highlighted on the Service Call Report and the issue communicated on the day with the manager and a completion date agreed.

Forecourt Pump Cleaning

(The First Point Of Contact with Your Customers)

Safe-Stride has developed a product specifically designed to remove petroleum residues from Forecourt Pumps. SS-2000 Forecourt Pump Cleaner is safe and easy to use.

Why choose Safe-Stride?

Our Service to forecourt retailers . We operate an in-house documented quality system for all our customers. This system provides full traceability of all activities.

- Chemical Usage
- Staff Training
- Hygiene/Health & Safety Audits
- Non-conformance Reports
- Updating cleaning schedules and cleaning procedures
- Specialist Focus Operational Hygiene

Scheduled Customer Service Calls and Service Call Reports

Every Month, our dedicated team are issued a schedule of all customer service calls to be completed. Each customer is visited at least every 8 weeks or more often if required.

During each visit a service call report is used to record information on stock levels and agreed orders.

- A copy of the report is kept on site in the Safe-Stride Chemical Manual, a copy is retained by the customer and is used as a corrective action report for non-conformance.
- The Safe-Stride copy is returned to our office and filed, the date on the report is entered on a service call log which is updated by the Account Manager, which in turn feeds into the service schedule.
